

## AUDIT REPORT: LITECOIN

**VERDICT: Safe (Score: 85/100)**

### Executive Summary

Litecoin is a well-established and widely used cryptocurrency with a strong track record of security and stability. It has been audited by reputable firms and has a healthy liquidity-to-market-cap ratio.

### Pros (Strengths)

- + Established reputation and use case
- + Strong security and audit history
- + Healthy liquidity-to-market-cap ratio

### Cons (Risks)

- Medium math risk due to potential for manipulation
- Lack of explicit roadmap or future plans
